Intent/Justification

The addition of $24,181 in GPR and the match of $53,918 in waiver funds for a total addition of $78,099 to the DD system lowers the cut to providers and consumer SDS grants from 1.5% to 1.375%. This will lessen any negative impact of the reduction to some existing consumers.

**Intent/Justification**

The two existing Dane County Elder Benefits Specialists staff are overwhelmed due to the increased number of program referrals and complexity of these referrals. Since April 2012, the program has experienced a 64% increase in the number of senior adults requiring services. The proposed budget includes a .5 FTE. AAA Board requests the addition of .5 FTE to make this a fulltime position. The average EBS staff member brings a monetary impact of more than one million dollars per year in benefits to community seniors.

**Department:** Human Services

**Program:** Children, Youth and Families - Juvenile Justice Services

**Motion:**

Expenditures be increased by $100,000 in the Department of Human Services - Children, Youth and Families Division - Juvenile Justice Services program to create a community court pilot project to address potential misdemeanor charges committed in a neighborhood or by a neighborhood resident aged 17 - 25 years old. The program would include 1.0 FTE community service coordinator (SW 16-18) at a cost of $70,000 for salary and benefits for 12 months, $15,000 for discretionary funds, and $15,000 for office set up, promotional materials, community engagement, mileage, a computer, and supplies.

**Program Effect:**

The primary purpose of developing a community court is to address the high involvement of youth in the criminal justice system by diverting youth, aged 17 - 25, from entering the system and developing a criminal record. Locating the project in an area where there is disparate racial involvement with law enforcement would address racial disparities in the justice system.

</tbody>
</table>

**Intent/Justification**

One approach to decrease the racial disparity in the criminal justice system is to keep individuals from entering the system at a young age. Other communities have had success with a community court model. This amendment provides funding for a pilot project in one Dane County neighborhood to develop and implement a community court for individuals of all races aged 17 to 25 who live in the neighborhood and commit a potential misdemeanor offense. While maintaining respect for the law, community courts provide offenders with immediate and meaningful sanctions, as well as the opportunity to repay the community for the offenses they have committed. They are the logical extension of restorative justice circle conferencing in middle schools and teen courts in high schools.

**NET GPR EFFECT:** $100,000
Neither expenditures nor revenues be changed and the following provision be added to the Dane County Operating Budget Resolution, "The Department of Human Services shall work with the Racial Disparities Subcommittee of the Criminal Justice Council to identify the neighborhood for the pilot project and make a recommendation to the Criminal Justice Council which shall make the final determination of the project site by March 31, 2014. The Department of Human Services shall report on program development and implementation to the Health and Human Needs Committee, the Public Protection and Judiciary Committee, and both the Criminal Justice Council and the Racial Disparities Subcommittee by June 30, September 30, and December 31, 2014."

This is an effort that will rely on multiple departments to succeed. The concept was developed by the racial disparities work group of the Criminal Justice Council and continued involvement of these groups will be important throughout implementation.

Intent/Justification

URGENT CRISIS: The two Rainbow C.O.R.E (Trauma focused consultation, onsite observation, resources and education) grants that the Rainbow Project had acquired from the Madison Schools Foundation and Attic Angel Assn., through 2012 and 2013 will end Dec. 2013. Attempts to obtain continued funding from other sources have not been achieved to date. We are looking for stop gap funding for the CORE program until future funding can be secured. 64% of Rainbow’s current caseload is from Dept. of Human Services involved children and families. We have received referrals for children and families experiencing severe domestic violence, including homicide, suicide, community violence, child sexual abuse drug endangered children. Actual funding amount needed to replace lost funds is $30,000. We would like to request an additional $10,000 for a total of $40,000 to expand the program. We propose serving 100-150 young children in 4 year old kindergarten and elementary school ages working in partnership with the schools special services team. Success from this piloted project include letters of support from both the Madison Schools and the 4K coordinators. Trauma-informed mental health services are for children in selected Madison/Dane Co Schools and the new 4 year old Kindergarten programs throughout the County. The National Trauma Network indicates that young children are most at risk for developing post-traumatic stress disorder. Specialized child/family centered evidence-based interventions will help reduce the risk of more serious mental health, academic, behavioral, medical, criminal problems from occurring. Younger and younger aged children are being suspended, expelled from school, early childhood programs due to the impact of trauma on their brain development and neurobiology. Timely, appropriate responses are essential. 10% of all new referrals each month are children and families who are homeless.

Intent/Justification

We will be losing $150,000, the majority of our funding in 2014, and need support from the County to continue to provide our basic services to adults and children involved in prostitution so as to divert them away from the county jail; and, to juvenile victims of sexual exploitation and human trafficking in order to divert them from juvenile delinquency and the adult criminal justice system. The city of Madison Community Services Commission currently provides $46,803.00.

We need Dane County to provide an additional $70,000 from Public Protection and Judiciary to continue our basic services. This will fund 1.25 case managers and basic operating costs (such as rent) so that we can continue to provide services to adult and juvenile victims in our community. Without this funding we will have to cut our services by 75%. Additionally, appropriate and adequate victim’s services supports law enforcement’s effort to build strong cases against pimps and perpetrators of human trafficking.

NET GPR EFFECT: $70,000
Add 1.0 FTE $78,500 to create a P-8 grants writer and contract process coordinator position, effective January 1, 2014.

Intent/Justification
Revenue available to fund new and innovative Human Services programs, as well as to sustain many highly valued programs, are being significantly reduced at both the State and Federal level. A full time grant writer would seek out and find new revenue sources to provide alternate funding for these important programs. In addition, this position would help write RPFs for the department and coordinate all Departmental POS contracting changes and updates to the more than 300 Human Services contracts to maintain consistency throughout the Department. This position would generate new revenue and create efficiencies.
