      i. Members will be appointed for staggered two-year terms. No member will serve more than two consecutive terms.
      
      ii. Discussion held that members could take a year off and then try to get reappointed. The goal is to have new members to have fresh perspectives.
      
      iii. Discussion held that the Chair and certain members should be standing members. Committee to review NAMI’s current committee rules and membership rules.
      
      iv. Discussion held on current membership timelines and how many would drop off. Concerns voiced on new members not engaging. Suggestion made to add rule to protect membership size and reappointing to be sure that we have quorum. Suggestion made to keep members staying until new person appointed. Suggestion that planning in advance, that appointments could be made ahead of time before a term expires. Julie commented that keeping a roster via expiration date and replacing one member at a time would help to keep reappointments and term ends consistent and would help to keep the team spirit. Suggestion to have employee members as standing members, with one being the CCS Coordinator and one other employee. Discussion held that NAMI doesn’t have staff members, they are staff to the committee. Suggestion made that Chair wouldn’t be a voting position. Suggestion made to also require changes in type of providers appointed so more types of services are represented. Suggestion made to limit delay of member replacement not more than 4 months.
      
      v. Suggestion made to change #1 and add County Staff to a designation.
