

Medicare Savings Programs

Wisconsin's Medicaid program may be able to help pay for certain Medicare costs if you are eligible to enroll in a Medicare Savings Program. Medicare Savings Programs are for those who receive Medicare benefits and who have limited countable income and assets. See the tables for these income and asset limits.

If you are eligible to enroll in a Medicare Savings Program, Medicaid may pay some or all of your out-of-pocket costs for Medicare Part A (hospital-related costs) and B (physician-related costs), depending on the program.

Medicare Savings Programs

Qualified Medicare Beneficiary (QMB)

The first day of the month after your application is approved, Medicaid pays Medicare Part A and B premiums, deductibles, and coinsurance if **all** of the following apply:

- You are entitled to Medicare Part A.
- You have countable assets at or below the program limit.
- You have countable monthly income at or below 100% of the federal poverty level (FPL) after certain credits are applied.

Specified Low-Income Medicare Beneficiary (SLMB)

Up to three months before your application date, Medicaid pays Medicare Part B premiums if **all** of the following apply:

- You are entitled to Medicare Part A.
- You have countable assets at or below the program limit.
- You have countable monthly income between 100% and 120% of the FPL after certain credits are applied.

Specified Low-Income Medicare Beneficiary Plus (SLMB+)

Up to three months before your application date, Medicaid pays Medicare Part B premiums if **all** of the following apply:

- You are entitled to Medicare Part A.
- You have countable assets at or below the program limit.
- You have countable monthly income between 120% and 135% of the FPL after certain credits are applied.
- You are not enrolled in full-benefit Medicaid, Family Planning Only Services, or Tuberculosis-Related Only Services.

Qualified Disabled and Working Individual (QDWI)

Up to three months before your application date, Medicaid pays Part A premiums if **all** of the following apply:

- You are disabled and employed.
- You are entitled to Medicare Part A.
- You have countable assets at or below the program limit.
- You have countable monthly income less than 200% of the FPL after certain credits are applied.
- You are not enrolled in Medicaid.

You May Already Be Getting Medicare Savings Program Benefits

Medicaid should already be paying your Medicare Part A and B costs (meaning you do not need to apply for Medicare Savings Program benefits) if you receive Medicare and Medicaid and either of the following apply to you:

- You are enrolled in the Supplemental Security Income (SSI) program.
- You were enrolled in SSI but lost it for one of the following reasons:
 - You were getting Old Age Survivors Disability Insurance (OASDI).
 - You are the disabled adult child of parents who died or became disabled, causing you to get an increased or initial Social Security payment that made you unable to get SSI.
 - You are the disabled or elderly spouse of a person who died, causing you to get a Social Security benefit that made you unable to get SSI.

When will payments begin?

If you are eligible to enroll in a Medicare Savings Program, please allow at least two months for payments to begin. This is the time that is needed for payments to be adjusted by

Wisconsin Medicaid, Medicare, and the Social Security Administration.

When Medicaid starts paying your Medicare costs, your Social Security payment will increase, and you will get a notice from the Social Security Administration. The Social Security Administration will give you a refund for any payment you made after the date you were enrolled in a Medicare Savings Program.
